EDUCATION

B. TECH - EEE   **Batch'2018-2021**
Reva University, Bengaluru   (8.73)

SKILLS

Key Skills – Core Java, AWS, Kafka, Basic Python, HTML, CSS
Framework & Design Patterns – Spring Boot, Hibernate, Spring MVC
Technology – Microservices
Database - SQL
Tools Used – Eclipse IDE, Spring Tool Suite, MySQL Workbench, Postman, MS Visual Studio Code, Git

PROFESSIONAL EXPERIENCE

Cognizant Technology Solutions   (Jan'22-Present)
PROGRAMMER ANALYST

- Highly skilled programmer analyst with expertise in developing robust and scalable CRUD applications and websites using microservices architecture, Spring Boot, and Java 8 features. Proficient in Rest API integration, Git version control, Kafka, Zookeeper and MySQL database management, delivering efficient and seamless user experiences.
- Experienced in designing and implementing Spring MVC and Hibernate frameworks to ensure optimal performance and maintainable codebases. Proficient in front-end development with and CSS, enhancing user interfaces and creating engaging web experiences.

PERSONAL PROJECTS

Currency Exchange and Converter Service:

- Created comprehensive Microservices project from configuring the Limit Service to implementing seamless Microservices communication.
- Utilized a wide range of technologies including Spring Cloud, Ribbon Load balancer, Eureka service discovery, Netflix, Spring Cloud Sleuth, Distributed Tracing, Logging, Active MQ, SIf4j Implementation, Git repository, and deploying the application.

Employee Management System:

- Led the creation of a real-time project utilizing Spring Boot REST API with full database CRUD capabilities.
- Leveraged Spring Boot, Spring Data JPA, Hibernate, MySQL, JDBC, and Rest API to streamline employee data management, resulting in an efficient and user-friendly application.

Product Details CRUD Application:

- Spearheaded a real-time project by integrating Spring Boot, Spring Data JPA, Hibernate, and MySQL.
- Demonstrated strong expertise in performing CRUD operations, thoroughly testing the application to ensure its robustness and reliability.

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- Attended TextBase Titans Hackathon from Mercor
